

May 4, 1971

The board met at the town hall.

Jack Brunettes permit for house and utility building allowed. A noisy group from Chub Lake demanded that something be done about frost boils and Chub Lake road. They were told that the road would be fixed as soon as we could haul. Also that there were other places that had spots in their roads.

A Mac Pietach asked for a permit for a garage house and told us we had no valuation on new houses so we would have to give him a permit. He was given an application blank and told to fill it out.
